SKILLS

TECHNICAL SKILLS

Javascript, HTML5, CSS3, Tailwind CSS, Python, Node JS, React Js, Mysql, Redux-tool-kit, React-router-dom, Wordpress, Elementor, Bootstrap, Express Js, REST Api

SOFTSKILLS

Telugu | Native • English • Hindi

INTERESTS

- Cricket
- Listening to Music

WORK EXPERIENCE

FRONTEND DEVELOPER   INEURON.AI PVT LTD. INTERNSHIP

April .2023 – June 2023
- Shopping Cart application was built during the internship
- Tech stack: ReactJs, Tailwind CSS, react-router-dom, context-api and for data and images fakestore api is used
- In this application user can add items to cart, in the cart user can see the cart items, increase cart items, decrease cart items and user can delete cart items

TECHNICALPROJECTS

ECOMMERCE | Application, Github, Live Link
- Developed a responsive MERN e-commerce application enabling users to seamlessly browse and purchase products.
- Implemented a secure and user-friendly shopping experience by implementing robust authentication measures and integrating the streamlined Stripe payment gateway
- Designed an intuitive admin panel for streamlined management of products, ensuring a smooth operational workflow.

NETFLIXGPT | Application, Github, Live Link
- Built using React, Redux Toolkit, Tailwind CSS and integrated with Firebase for user authentication.
- Implemented a unique Chat GPT search using GPT-3.5 Turbo API for intuitive movie searches.
- Proficiently utilized TMDB API for comprehensive movie data retrieval, showcasing adeptness in seamless integration within React applications.

DEVTINDER | Application, Github, Live Link
- Developed a MERN stack platform that enables developers to register, showcase their skills, and connect with peers for collaboration
- Crafted an intuitive UI with a sleek, responsive design using Tailwind CSS, enhancing user experience and engagement
- Implemented user authentication and secure data management, ensuring a safe and seamless experience for all users

VOTE | Application, Github, Live Link
- Developed a MERN stack voting app enabling user registration and party voting, with an intuitive admin panel for candidate management
- Crafted seamless UI with sleek, responsive design using Tailwind CSS
- Implemented efficient admin controls for streamlined candidate management, enhancing scalability and efficiency

ACHIEVEMENTS
- Achieved 5 star GoldenBadge in python programming language proficiency HackerRank
- Achieved 3 star SilverBadge in Problem solving on HackerRank

FREELANCE WORK
- Developed hospital website using react js and integrated with google sheets for appointment booking : https://riverhospitalsmlg.com/
- Built a landing page for GSR Media : https://gsrmedia.co/
